

THE CRYPTOCURRENCY THAT ALLOWS
INSTANT ACCESS TO THE US STOCK
MARKET

THE PROBLEM

Millions of people around the world wish they could do something better with their money than hide it under a mattress or put it into a bank they don't trust owned by a government they don't love. Now there is a solution. StreetCoin: A tokenized security, in the form of a cryptocurrency that is fundamentally tied and connected to the Vanguard Total Stock Market Index Fund. Each token follows the fund allowing market access to foreign and non-traditional investors to the US Stock Market, a safe haven..

COMPETITION

While there have been numerous asset-backed cryptocurrencies, those backed by oil, gold, platinum, and other "stable" securities there has not yet been a coin backed by any securities.
